

Color Story

Deep Greens/Navy to compliment leather details & darker woods

Living Room Concept

Bring in a rug to anchor the space and accents to tie color story together

**The right rug + accent pillows to tie everything together will make a huge difference.
A large piece of artwork above the sofa would be a simple, yet effective way to make the space feel finished as well.**

Dining “Nook”

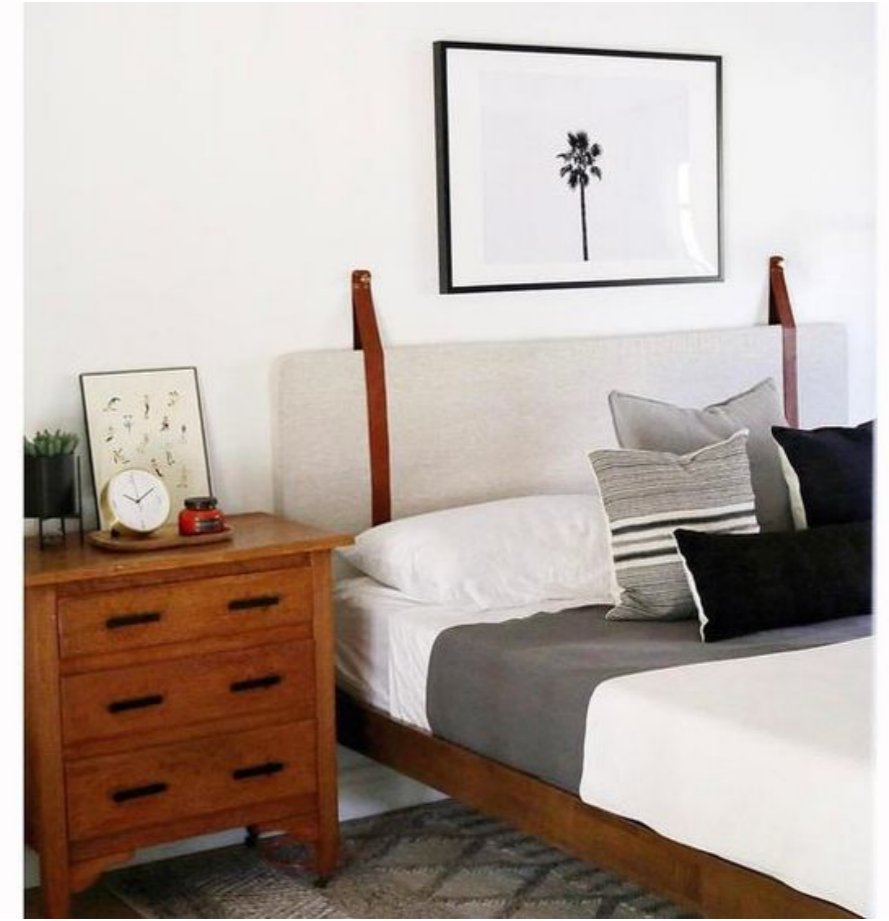

Simple & Small

**A smaller table with a couple of chairs and a bench against the wall will make the best use of the dining nook.
I love the idea of a bar cabinet vs. a bar cart.**

Bedroom Concept

Clean, crisp walls and linens anchored with a unique headboard & darker accent pieces

**A dramatic headboard will make a huge impact.
Lighting and simple bedside tables + definitely a mirror as well.
Would be great to add a rug or bench to tie everything together if the budget allows.**
